

Issaquah Transit Center/SR-900

The Issaquah Transit Center project provides a new facility at the site of the existing Issaquah Park-and-Ride at State Route 900 and Newport Way N.W. The transit center features 819 parking stalls in a four-story garage, bus layover space, six new bus bays with efficient loading areas and weather-protected passenger shelters. The secure facility includes CCTV, customer emergency stations and a police outpost. A passenger pick up/drop off area and bicycle storage is also available.
